Subject: trust me on this trustee thing

----- Message Contents -----

Beth-

I suggest that we contact Jordan English and have him coordinate the trustee negotiations (i.e. have him find out to what extent TDEC will be involved in neg; who will be contact for neg; and what resources are of concern here)

In the alternative, I suggest we contact Commissioner Luna (or his office) and send him a copy of the ROD to see if he thinks the remedy will be protective and restorative (?) of the resources in question. Hopefully, the decision will be that we can keep his office updated on negotiations, but the remedy in the ROD is sufficient assurance for them.

I'm willing to do the leg work on this, but I need Jordan's number. Please give me a call.

Thanks

Pete
